SEMI-WEEKLY INTERIOR JOURNAL.

VOL. XVIII. STANFORD KY., FRIDAY, JANUARY 30, 1891. NO. 96

From Our Lancaster Humorist.

An Ohio paper announces that "the short-horned men are in session at Columbus." When a man in Kentucky is asked to take a horn, it is understood to be an intimation that he can indicate whether he prefers it with or without sugar, but they are usually long and not short horns. Short-horned men may be peculiar to Ohio, but Kentuckians want their horns long and frequent.

AN OLD-TIME FIGHT.—The Cincinnati Enquirer says that an Ohio court adjourned to read the account of the prize fight between Fitzsimmons and Dempsey and why should they not, when they remembered that the Court of Appeals of Kentucky is reported to have adjourned many years ago to see an elephant swim the Kentucky river at Frankfort. By the way, while the gambling incident to prize fighting is demoralizing and unworthy of encouragement, the propriety of athletic training is to a certain extent commendable. It develops the muscles, aids digestion and in many ways contributes to health and the prolongation of life. It prepares one for the defense of his person without resorting to the use of deadly weapons, and in that sense if in no other is worthy of commendation. To be prepared to knock an adversary down scientifically is better than to go loaded down to the guards with weapons to send him to the bone-yard where he can have no opportunity to apologize or mend his ways. It is related that many years ago a bully, who had up to that time been the terror of Lancaster, was knocked down seven times by a man much smaller than himself, but who had the regular training of a pugilist, and the effect upon the ruffian was such that he joined the church the Sunday following and was a consistent member during his residence in Garrard. There may be those in Stanford, as well as Lancaster, who will remember Stewart, the Scotchman, who pounded religion into the Lancaster bully, and afterwards located in California. It is said that Stewart neither received a blow nor a scratch during this remarkable encounter. His method of conversion was not in accordance with that of Moody and Sankey, but it was efficacious, all the same.

If it is good and pleasant for brethren to dwell together in unity, why should it not be equally so for dogs? And yet, to the shame of the canine species, it is reported that a dog, whose christian name is "Dandy," and who is reported to be owned by a no less personage than Hon. J. Proctor Knott, ex-member of Congress, ex-governor of Kentucky and member of the constitutional convention, without having the fear of man or dogs before his eyes, and with malice aforethought, entered into and upon the premises of another conspicuous citizen, known to the world as S. B. Buckner, ex-general, governor of the Commonwealth and also member of the constitutional convention, without having been invited to do so, and without the knowledge and consent of said prominent citizen and then and there made a savage, ferocious, warlike and brutal assault upon the body of "Fritz," a poor and penitent, though highly honorable dog, the property of the aforesaid prominent Kentuckian, inflicting divers wounds and gashes upon his body, from which he then and since has suffered excruciating agony of body and mind in violation of the statute in such case made and provided and against the peace and dignity of the Commonwealth of Kentucky. To this terrible arraignment "Dandy" pleads not guilty, and announces ready for trial. But not content to submit this trespass, assault and breach of the peace to the peaceful methods of arbitration or the verdict of an honest jury, the owners of these wonderful quadrupeds have under the inspiration of those time honored maxims, "Love me, love my dog; hate me, hate my dog," shown their teeth, and forgetful of the fact that they are brethren of a dignified body in convention assembled to frame a new organic law of the land and ought to "dwell together in unity," have developed symptoms of animosity bordering on an old-fashioned fight, in which fists would play a prominent part. May the solons at Frankfort or the police be enabled to keep the peace.

CRAB ORCHARD.

—The partnership of Pettus & Zeller is dissolved and those indebted to them, either for drugs or medical services, are requested to call at Pettus & Beazley's and settle, if they wish to save costs. 1m.

—The inauguration of the Growers' Tobacco Warehouse, at Louisville, was neither a brilliant success nor a disappointing failure, but something about midway between the two. Though few buyers were present, the prices were in the main satisfactory and the rejections few. The other warehouses in the city spread themselves and sold 872 hogsheads that day, the highest price being $27.50 for Burley leaf.

—The United States treasury now holds in gold and silver in coins of all denominations, and bullion, the handsome sum of $655,770,827.

The B. M. on His Rounds.

Through the wisdom of some facetious being this "future great" has been dubbed "Muddlesboro" and if the new name is to signify that it is a muddy borough or city, I should have said, the name just now is a most appropriate one. It was my fortune to be in the Magic City this week and when I say that it was muddy I very feebly express the true state of case. Cumberland Avenue, the great thoroughfare, with $500 per-front-foot lots, on the right and left, will, I venture to say, double discount any mountain road in the United States. There seems to be no bottom to any of the land around and Cumberland Avenue can show from 1 to 4 feet of the meanest mud under the canopy of high Heaven.

Notwithstanding the mud, Middlesboro still pushes forward and to-day there is as much, if not more, building going on than in any place of its size in the country. The tight money market seems to have retarded the progress of building not the least and the invincible "Queen of them all" boom towns is still a marvelous miracle to all.

About the largest building nearing completion is that of the Coal and Iron Bank, which covers nearly 75 feet front and which is 3½ stories high. It is brick, of course, but the front is evidence of a liberal display of brown and other stone. In fact, it is the handsomest building in Eastern Kentucky and will stand as an ornament even in wonderful Middlesboro. Mr. A. A. Arthur is also putting up a grand one on 20th and Cumberland while other 2 and 3-story buildings are going up every square or two.

There seems to be a general impression that ere springtime has passed, Middlesboro real estate will enjoy another boom. Such a thing would cause a smile to slip over the faces of many a Blue-grass man, while Lincoln countyites would wear a grin all over their faces. A boom about now would be a pretty acceptable thing and that it will come and come quickly there are many who earnestly hope.

The English lady is an imitator of the male sex to a fault. She has always worn a cap and coat like those worn by men, but not until this trip had I ever seen them wear pants, i. e., sure enough pants. They are cut considerably larger than those worn by men and at a distance look something like tight-fitting dresses. At the knee the legs are stuffed down into a pair of gum boots and the English lady presents a sight sure enough. Thank Heaven I only saw one of them dressed as above and it was a case of "now you see it and now you don't," for she was preparing for a horseback ride and it was only from her house to where she straddled her bob-tailed horse that my eyes caught sight of her.

The order regarding the removal of tents from Cumberland Avenue was heeded to a very little extent and altho' it was issued several months ago, fully one-third of the business carried on is done in them. It looks to a man up a tree like the laws of Middlesboro, as a general thing, are very little more stringently carried out than those of an ordinary town, notwithstanding the large body of police there to see that any and all laws are enforced.

The sports and other men of ease have nearly ready for occupancy their Oconta clubhouse, which is about the biggest thing on wheels. It contains some 30 rooms and its design is unique in the extreme. The dancing pavilion in connection has a spring floor, eclipsing the celebrated one in Frankfort, and the opening ball will, it is said, be the social event of Middlesboro's well-rewarded efforts.

Messrs. Zan Tribble and Sam Bruce, both well-known in this section, are making a good thing of the hotel business at this place. The former has some 75 regular boarders at the Cumberland and enjoys besides a big transient trade, while the latter, who runs the Phoenix, is said to be coining money. Mr. Bruce will move into larger quarters in a few days, when he will be glad to see his friends at the New Ashbury Hotel.

Pennington & Dudderar are still working at their mine, some 18 miles distant, and glowing reports come in daily regarding the precious minerals found. Success to the enterprising firm and here's hoping that their fondest hopes will be realized.

Middlesboro is getting to be an unusually gay place from a social standpoint and hardly an evening passes without some brilliant entertainment. A mask ball, a German and a couple of parties are the events of this week, while last week each evening furnished something of a pleasing nature for the young people.

Very little property is changing hands just how, but it will please many owners of Middlesboro dirt to know that there has been no decrease in the price of real estate and that it is holding its own admirably. The soothsayers say that there is no necessity for a scare on the part of any owner of real estate and all that is necessary to make a good thing of their investment is to hold to their property. So mote it be.

MT. SALEM.

—Rue, a son of Mrs. Vina Estes, of color, died on the 26th.

—Prof. John Riffe opened a select school at this place on last Tuesday.

—Married, at Middlesburg, on last Tuesday night, Mr. Albert Lanham, of this place, to Mrs. Martha Goodman, of Casey.

—Miss Permelia Myers, daughter of Wm. Myers, Sr., of Carpenter's Creek, died on last Wednesday morning, after a long illness of several years standing. She was a highly respected young lady and her loss will long be felt by her many relatives and associates.

—Ambrose Humphrey, son of Mr. D. F. Humphrey, of Carpenter's Creek, met with a disagreeable accident a few days since. While attending Prof. Buchanan's school at Middleburg, in exercising on a gymnastic pole, the pole broke and knocked out two of his front teeth.

—Just returned from Liberty, but no news from there. County court was on hands Monday, but only a moderate crowd was present and nothing particularly done. Liberty still stands still like she has done for the last 100 years and waits for somebody to bring a boom there. Other towns bestir themselves and invite them, but Liberty sits down contentedly and waits for 'em to come. But with all of Liberty's short comings, the writer, who is somewhat of an old fogy himself, loves her still; she is the only remaining town of a former age.

—At the closing exercises of the colored school near this place, a few weeks since, Mr. James H. Thomas made a speech in regard to which many remarks have been made, some of which were derogatory to him. Mr. Thomas requests the writer to correct erroneous impressions and statements concerning that speech. He claims that happening to be there witnessing those exercises, that some of the leading colored folks requested him to deliver them an address, which he did, according to the best of his ability; that he gave them all the encouragement he could in acquiring an education and improving themselves; but positively denies advocating mixed schools, or even mentioning that subject. There are other rumors which Mr. Thomas denies, which your correspondent does not deem of sufficient importance to note down.

MIDDLEBURG, CASEY COUNTY.

—The committee met Tuesday night in regard to building streets.

—Candy pullings, moving and marrying are the order of the day.

—Royalty & Moran have just completed a job of graveling on the Middleburg and Liberty pike.

—Any one wishing to buy, sell or in any way trade horses will do well to address D. G. Elliott, of this place, for he has them of all shapes and sizes from string-halted to sway back.

—One of our citizens received a letter from a man in a near village stating that he would receive a dusting soon. Our townsman says he don't run; ain't built that way, and was never scared or run off in the heat of the day without a blanket.

—Mrs. Lilla Ross, near here, was taken very suddenly Sunday night with a cramp in her toe; the pain increased and soon overpowered her in a few minutes. She could not move hand nor foot. Medical aid was summoned and she is better at this writing.

—Our much esteemed and enterprising merchant, Perry Wesley, has decorated his store with a new lot of signs. W. I. Gann, our former hackman, has resigned and Holland is the accommodating hustler now. W. P. Keerey, who moved from here to Somerset in Sept., last, to take charge of a lumber contract, returned Monday to make his future home here.

—On last Tuesday night the people were aroused at midnight by the roaring of anvils, shooting of guns and rattling of pans. It was a notice that a certain couple were bound in the holy bonds of matrimony. The parties were A. Lanham and the Widow Goodman. The reason the wedding was so late, it seems that another widow was holding a claim on Mr. Lanham and would not fully consent that he should marry. The widow was at the residence of his intended, when he wanted to take her home. She finally agreed to go and they departed, leaving the other one in doubt of his returning. The widow he left with stuck close to him and guarded him until bedtime and until she thought him safe. She then retired. In the dead hour of night he slipped out quietly and carefully and left for his intended. He arrived and proposed to have the knot tied then. Al Royalty was aroused from his sleeping quarters and started for a minister, who put in an appearance and the thing was done. The other widow did not know of it until next day. Things are still lively, but will come to a focus soon.

—It is estimated that as many as 4,500 wires were torn down by Sunday's storm in the East.

MATRIMONIAL MATTERS.

—D. M. Chenault, a lawyer, and Miss Ida White were married at Richmond, Wednesday.

—Mr. Lewis Bell and Miss Kittie B. Nordyke, both of the East End, were married yesterday at the bride's mother's.

—Co-education is no failure in the Missouri university. The St. Joseph News reports 40 marriage engagements between the male and female students.

—The skeleton of an unfaithful New Mexican wife and her paramour have been found in a walled-up secret apartment. The husband had chained them together and left them to starve to death.

—Mr. J. Boyle Nichols and Miss Cora, daughter of Postmaster S. D. VanPelt, at Danville, were married Wednesday and left at once for Louisville, where they will visit a few days and return to Danville to live.

—Mr. Max Manes, of this city will wed Miss Bertha Altsheler, of Germany, sister of Mrs. Jos. Salinger, of this city, in March. Miss A. has only been in this country about six months, and first met Mr. Manes here about four months ago. They will take up their residence in Stanford, where Mr. M. will take charge of an established business.—Paris Kentuckian. Miss Altsheler is the very handsome young lady who recently visited Mrs. Max Salinger here.

CURRENT COMMENT.

What the Kentucky Editors are Saying.

It wouldn't take President Clay very long to Clardy gracious he was opposed to the sub-treasury scheme.—Covington Commonwealth.

The constitutional convention cannot take any action that would strengthen the new constitution more with the people than to locate the capital at Louisville. With this wise provision in it many of its objectionable features would be overlooked.—Hopkinsville Kentuckian.

If Hill lets go the governorship of New York the patronage of that great State will fall into the hands of Jones, of Binghampton, who not only pays the freight on the scales he sells and wears a monster moustache, but he is a friend of Grover Cleveland.—Owensboro Messenger.

The men who framed our National constitution were by no means looked on as prodigies of wisdom among their contemporaries, who were no better people for their day than our contemporaries are for our time. Those framers of our constitution whom anybody can name off-hand, will not number a dozen, and they are men who became famous otherwise, mostly by what they did after that great work was accomplished.—Louisville Commercial.

The rule giving the Senate the power to put an end to debate was laid aside yesterday by a vote of 35 to 34. This means the defeat of the election bill and now we hope there will be a final action of that measure and that it will be got out of the way of business. The rule for closing debate was only opposed, just as it was only proposed, with reference to the election bill. When it comes up on its own merits, as it will of necessity in the near future, it will pass without much opposition. No other free deliberative body is without such a rule and the lack of it in the Senate, which is an anomaly, will before long be recognized as an absurdity.—Louisville Commercial.

CONSTITUTIONAL CONVENTION.

—Signs of dissatisfaction with the work of the con. con. continue to multiply. If any delegate doubts this let him take a trip on a railroad train and talk with the people whom he may meet. It is an easy and ready method of obtaining a concensus of public opinion.—Frankfort Capital.

—Hon. W. H. Miller made a lengthy and excellent argument in favor of his court scheme, which calls for the abolishment of the superior court. During his speech he referred to the Lebanon convention that nominated Barbour over Saufley in such a way as to call forth a rejoinder from the member from Henry, to which Mr. Miller rather hotly surrejoined, but the tempest was of the teapot order and soon over.

—Having finished the municipality report the convention is now considering the majority and minority reports on the judiciary and Mr. W. H. Miller's substitute for both. The majority recommends the system of one high court, with a chief justice elected from the State at large; the minority recommends retaining the two courts as now arranged. Mr. Miller's substitute is very elaborate and is identical with the synopsis published last summer by the gentleman. It is said that this report is likely to consume many weeks of time, as it is one of the most important of the 25.

—Now that Kansas with its 64,000 republican majority, (that is before the late revolution) has denounced the federal election bill, through its legislature, by a vote of 91 to 21, it looks as if the measure has few friends.

SEMI-WEEKLY INTERIOR JOURNAL

STANFORD, KY - JANUARY 30, 89

W. P. WALTON.

JUST as Aldrich, Hoar and the other conspiring sons-of-guns in the Senate thought they had the deadwood on rushing the cloture through, they were dumb-founded by having it set aside for the consideration of the apportionment bill. It was done in this wise: Mr. Morgan, of Alabama, was proceeding with an elaborate speech against the gag, when, taking advantage of the absence of several Senators, Mr. Walcott, of Colorado, himself a republican, asked him if he would yield for the consideration of a motion. Of conrse Mr. Morgan vielded, and the motion was to lay aside the cloture resolution for the consideration of the apportionment bill. Several republicans moved to table the motion, but it was lost and by a vote of 35 to 34, Mr. Walcott's proposition was adopted. The republicans who voted with the democrats were Senators Cameron, Jones, Stewart, Teller, Washburn and Walcott. Plumb, of Kansas, who had been counted against the Force bill, voted against the motion to set aside. It is now believed that the Force bill is dead, though the conspirators say they will call it up again the first opportunity

GEN. CASTLEMAN, it is said, will call a meeting of the democratic State Central Committee early in February to fix a date for the convention to nominate candidates for governor and other State officers. We can see no reason for rushing things, though all hope of the convention getting through in time to have the new constitution submitted at the August election seems to have gone glimmering. As several of the candidates are members the convention, however, they will have to get up and hustle if the convention is called for May.

THE Alliance members of the Kansas legislature nominated W. A. Peffer, editor of the Kansas Farmer, the leading Alliance organ of the State, on the 19th ballot, which stood Peffer 46, Elder 39. The House refused to allow Ingalls to deliver an address and the ballot in the separate Houses was taken Tuesday, when Peffer received 96 in the House, Ingalls 23 and Blair 5. In the Senate Ingalls got 35, Peffer 2 and Blair 1. This was enough to show that the Jayhawker's goose was cooked and the following day he was done up to the tune of 101 for Peffer to 58 for him.

COL. WILMORE says he has not resigned his position of revenue agent and is not going to, so our friend Wood Dunlap and others had their trip to Washington for nothing, unless they got some fun out of it. We thought in the beginning that the suggestion of a republican officeholder resigning an office was a very weak fake. There is hardly a case on record of one giving up an office of his own free will and accord and deaths among the class are like angels' visits, few and far between.

UP to this time, Mitch Alford, the handsome ex-Lexingtonian, who now claims Middlesboro as his home, has had an undisputed track for lieutenant governor, but a new Richmond has appeared in the field in the person of the no less distinguished gentleman from Winchester, Thomas G. Stuart. Tom is a hustler, but he has probably put his candidacy off too long to catch up with the horse that has gotten such a start on him.

IT is said that the Alliance Senator from Kansas is a taller, slimmer and uglier man generally than Ingalls, but he cannot be as vitrolic. He was a republican before he joined the Alliance a year ago, since which time he has waged a bitter war against Ingalls. On the tariff and silver question he is with the democrats. Judge Peffer was born in Pennsylvania in 1831 and served during the war on the Federal side as quartermaster.

AN appalling disaster occurred in the Frick Coke Co.'s mine at Scottdale, Pa., Tuesday. By an explosion of fire damp 130 souls were either horribly mangled or died the more lingering death of suffocation. A black pall of sorrow covers the whole section and many an humble miner's family has lost its only support. The scenes around the mines when the mangled forms were brought out were more terrible than can be described.

CANDIDATES for the legislature are coming out all over the State, but as yet no one has expressed a desire, so far as we have heard, to represent Lincoln in the next meeting of that body. Among those spoken of in the connection are Dr. Green Moore, of McKinney, and George P. Bright, of Hubble, both good democrats and capable men.

O. J. WIGGINS, of Kenton, is announced for Secretary of State. It is to be hoped that he will have better success in his aspirations than his namesake has in his weather and earthquake prognostications.

HON. W. F. VILAS is now senator-elect from Wisconsin and old man Spooner is in the soup. It has been a long time since a democrat represented that State in the U. S. Senate.

SENATOR INGALLS was a horse in his day; in fact while he lived he lived in clover, and when he died he died all over. In answer to a reporter's question he sang the following plaint: "I have no plans for the future. I only know that I shall remain in Kansas. I came to the State three years before its admission into the union. I have lived here ever since; all my belongings are here; all of my children were born in Kansas. My dead sleep in her bosom and I hope to mingle my dust with her soil." Poor fellow; much of the ire which his course has created in the democratic heart is toned down by his opposition to the Force bill, which good act attones for very many sins. Whatever may be said against his use of it, there can be no denial of his ability, or chargethat he took advantage of the minority in the Senate when he was its presiding officer.

SENATOR STANFORD, upon whom the radicals in the Senate were relying for aid in pushing through the gag rule, designed to facilitate the passage of the Force bill, telegraphed Senator Stewart that he was against both schemes and asked that he be paired accordingly if necessary. This is the last show for the conspirators, who have apparently given up the unpopular measures and agreed upon a programme in which they are not in it. The order of business now is: After the apportionment bill is out of the way, the eight-hour, the copyright, Indian depredations, pure food, Nicaragua canal and appropriation bills.

THE Cincinnati Commercial gives him this parting kick: By the defeat of Ingalls, of Kansas, the r publicans lose a member in the Senate. No other republican could have better been spared from the party. He has gone to his political reward. This is defeat, and he deserves it. All he ever had the republicans gave him. He has shown his gratitude by turning his back on his party. The result in Kansas, coupled with a like result in Illinois, will make the Senate a tie, with the prospect of a great deal of fun and not much business ahead.

IT is said that Senator Gorman's fine Italian hand directed the course of the democrats in the Senate, which resulted in the ignominious defeat of the Force bill and he is already mentioned for the presidency, his admirers claiming that his nomination would silence the talk of bad feeling between Cleveland and Hill and solidify New York. Mr. Gorman is a promising young man and has done noble service, but he must tarry a while in Jerricho till his beard be grown. Mr. Cleveland has the call next time.

THE Force Bill is dead and so is the party which championed it. The republicans will not do their own registration, their own enumeration and their own certification next time, nor another time and if the next democratic House will steer clear of mistakes, there will not be even the corporal's guard of republicans in that body elected to the 53d Congress.

THE question of securing the State capital, which it seems is to be put up to the highest bidder, is agitating numerous and sundry towns, including Louisville, Lexington and Middlesboro. So far as we are concerned we hope it will remain at historic Frankfort, but if it is to be moved, we vote for Lexington as the more central and accessible point.

SOME more postal card votes show Cleveland a big favorite. Replies from all over the country to the number of 100,000 show nearly 75,000 in favor of the Man of Destiny. On the republican side Blaine leads Harrison and all the others by several full lengths. Cleveland vs. Blaine is the way it will read in 1892.

THE Illinois legislature goes through the form daily of taking a ballot for Senator with the same result—Palmer 101, Oglesby 100, Streetor 3. Why don't one side or the other buy the three wise men and settle the business?

The L. & N. people have secured a first-class man in Mr. Morse and his many friends here and elsewhere wish him success in his new field of labor.

—When told that the republicans were waiting for him to die so that his pair against the Force bill could be broken, thus giving the conspirators another vote, Senator Hearst, of California, who is supposed to be fatally sick, said: "D—n them, I am not going to die," and forthwith proceeded to get better. Let us pray for his entire recovery.

—By the report adopted towns the size of Danville cannot tax its citizens for municipal purposes over 75 cents on the $100, and those of Stanford's size but 50 cents, but these limitations do not include taxes that may be necessary for school purposes and to meet the interest on and discharge the principal of indebtedness contracted before the adoption of this constitution.

—The snow and sleet storm in New York seems to have done more actual damage than the great blizzard of 1888. Telegraph communication has been so nearly cut off that the country at large has not heard enough of the details of the storm and its damage to appreciate its severity. At one time there were only 15 wires out of New York city.

—The legislatures of Alabama, Tennessee, Arkansas, Texas, West Virginia and Indiana have passed resolutions not to appropriate money for State exhibits at the World's Fair if the Force bill is passed and similar resolutions are pending in the legislatures of New York, New Jersey, Wisconsin, Missouri and Nebraska. Finally the jack got a hold of the stallion's neck close down to his shoulder and tore a piece clean out, severing the stud's windpipe. The stud at the same time landed a kick below the jack's knee of the hind leg breaking it so that it only hung by the skin. The stallion died and Mr. Thomas killed the jack to relieve it of its sufferings and to prevent it from going mad and doing further damage. The stud and jack were valued at $1,200 for the two. The stallion had been bitten by a mad dog.

BOYLE county's taxable property foots up $6,830,508, says the Advocate. This is $2,000,000 more than Lincoln's, although we have 3,000 more population.

A KANSAS man named Thomas Calf has applied to the legislature to change his name. Our Tom Calf is rather proud of his name and wouldn't change it if he could.

THE engine of the second section of freight 38 got off the track while switching at Altamont yesterday morning, but no damage was done save the tearing up of some 50 feet of track.

NEW CHAIRS.—Jesse Thompson has refitted his tonsorial parlors with elegant revolving chairs, which are models of beauty and comfort. He now has the nicest place of the kind in this section of the State.

AFTER a close rainy day Wednesday and showers yesterday morning, the sun came out brightly before noon and the air was as balmy as springtime. To-day is promised by Gen. Greely to be fair and colder.

CARTER & HESTER are about ready to steam up their distillery on Dix River. They expect to make only a barrel a day to begin with and steadily increase. Their corn was all bought last fall at $2 and in this they showed their foresight. It is selling at $3 now.

THE L. & N. has been in nominal control of the K. C. for a month, but as yet no changes have been made and none announced. It is understood, however, that they will take hold in earnest Sunday and inaugurate a number of improvements in the running of trains.

WE continue to hear from that miserably kept Middlesboro post-office. Another subscriber writes that he has only got four or five papers from us since November, notwithstanding about 30 have been mailed him. Perhaps he can find them in the ash barrel. Such a postmaster ought to be kicked out if he won't get out.

THE young people met with the Misses Baughman Tuesday evening for the purpose of organizing a literary society, when committees were appointed to draft a constitution and by-laws, decide on a name and do the other preliminary work. The next meeting will be with Miss Annie Alcorn, Feb. 7th, when officers will be elected. The objects of the society are the very commendable ones of literary improvement and social enjoyment. The meetings will be every Friday evening.

THE governor of California pardoned Wils Howard, the Harlan county terror, who was serving an eight-year sentence under an assumed name for robbery, and granted the requisition for him by the governor of Missouri, who wanted him for the murder of a deaf mute, committed two years ago. Howard protested against the pardon and said it was nothing but a scheme on the part of Detective Imboden and Mr. Bailey to spirit him away and murder him. He is now on his way to Dixon county, Mo. and if he doesn't catch it pretty heavily for that murder, he will be brought to Kentucky to answer for the numerous others charged to him. The dispatches say he confesses that he has killed eight men "in self-defense."

THE question of water works is again being agitated here and by a new set of men. Dr. Peyton and others have taken hold of the matter and say they are determined to push the enterprise to successful issue, if they can get a partial show from the people. The doctor has been investigating the cost and he finds that the works can be put up and the main laid to town for $15,000, which is $5,000 less than estimated last spring. It would be a big thing for the town in many ways to have water works. It would improve the sanitary condition, reduce the cost of insurance, stimulate manufacturers and give the town a boom, which would help every kind of business. Those who have investigated the question are confident that it will pay the stockholders and they propose to show their confidence by their works. The Logan's Fort Spring is acknowledged to be the best and purest water in this section and it can be brought to town at a cheaper rate than asked at any other town that we know of. We hope the gentlemen will continue to work for the water works until their erection is fully assured.

WILS JENNINGS' appeal from the sentence of the Laurel circuit court, fixing his penalty for the murder committed in Harlan county at life confinement, has been set for hearing by the Court of Appeals for Feb. 7. Jennings is in jail here and is a remarkably well behaved prisoner for a man with the murderous reputation he has.

BUT few people have any idea of the amount of good the Odd Fellows do. During the sickness or disability of a member they pay a benefit and see that he is properly cared for during his confinement. In one case alone we know of $48 being paid to a disabled brother, besides $36 spent for attendance on him. Their widows and orphans are all well provided for and in case of death a liberal amount is set aside for burial expenses. The lodge here is in a very flourishing condition and accessions are frequent. It owns a handsome building and has more than $1,000 in its treasury to meet such expenses as those named above.

—A seven-weeks-old son of Thomas Carter, of Rowland, died yesterday.

—James Mitchell Crow, son of Mr. and Mrs. R. H. Crow, of Barren county, died at the residence of Mr. J. A. Mitchell, Bowling Green, Wednesday, Jan. 21st, at 11:30 A. M. Mitchell was an unusually bright and interesting child and in his brief life of 20 months had completely entwined himself around the hearts of all who knew him. Washington Letter.

[To the Editor of the Interior Journal.]

WASHINGTON, Jan. 26.—Senator Gray made a telling point against the proposed republican gag rule, now before the Senate, when he called attention to the fact that cloture was first introduced to the English-speaking people to assist the tories in suppressing the House Rule movement in Ireland. He said: "It is a significant fact, pregnant with instruction and warning to the American people, that the first time in the history of England that an attempt was made in the House of Commons to limit debate it was made in order to suppress home rule in Ireland. Let gentlemen go out and tell their naturalized fellow-citizens from that stricken and unhappy isle that the American Senate is taking a page from the history of the English parliament. Cloture was adopted in England in order that Irishmen might be gagged in the House of Commons when they attempted to assert that freedom of speech which belonged to them as representatives of their people. Let gentlemen tell the naturalized citizens that that is the example they are following in order to destroy home rule in this country."

The republicans profess to believe that the action of the legislatures in some of the Southern States in refusing to consider bills making appropriations for State exhibits at the World's Fair while the Force bill is pending, is a bluff, but it is easy to see that it has greatly disconcerted them, and they are receiving hundreds of letters every day from their commercial constituents demanding that the Force bill be abandoned, but they still persist in going ahead to their own destruction.

Mr. Morton has allowed himself to be made the tool of the radical republicans and by making a number of arbitrary and unjust decisions he has enabled the gag-rule gag to get the cloture rule before the Senate, and they are confidently counting upon similar rulings to get it adopted, and there is no indication that they will be disappointed.

The Confederation of Industrial Organizations, which met here last week, elected Benjamin Terrell, of Texas, president and J. W. Hayes, of Pennsylvania, secretary and treasurer. It also adopted as its national platform nine demands, the most of which every good democrat can endorse without stretching his conscience in the least. For instance, free coinage, the prohibition of aliens owning lands, opposition to using taxation to build up one class at the expense of another, limiting the revenues of the government to its necessary expenses, State and national supervision of the means of public communication and the election of U. S. Senators by direct vote of the people, and of president and vice-president by a popular vote.

The confederation took no formal action towards the formation of a new political party and I do not regard it as probable that they will in the future, because, from talks with the delegates, I am satisfied that a great majority of them believe that the democratic party will take care of their interests and that they will use their influence to have all members of industrial organizations support the national democratic ticket next year.

Speaker Reed is doing his level best to gag the democrats of the House and is only prevented from going to greater extremes by the absence of a republican quorum. He is trying to railroad the appropriations bills through so as to have a clear track when the Force bill comes over with the Senate amendments, if it ever does. He isn't succeeding very well, and will not, unless he gets that republican quorum, and keeps it.

It begins to look as though the silver pool investigation would turn out to be the usual republican congressional farce, and that Senator Cameron, who has admitted his guilt, would be made the scape-goat. It is stated, and generally believed here, that Mr. Reed and other prominent republicans are using their influence upon the individual members of the committee to prevent their exerting themselves to find out who has been speculating in silver. There is also talk about some democrats doing the same thing. This is all dead wrong, if true. If any senator or representative, be he high or low, democrat or republican, has been speculating in silver, while bills affecting the market price of that metal were pending, let him be exposed. The people have a right to know and no halfway methods on the part of the committee will satisfy them.

The largest single building on the globe is said to be the Freihaus, a monstrous apartment house of Vienna. In it are 1,500 rooms, arranged so as to make 400 dwelling apartments. Two thousand one hundred and twelve persons live under the one great roof, a population sufficient to make a city large enough to incorporate and furnish with a full set of aldermen. The immense building has 130 staircases and 50 elevators. The postmen say they often deliver 1,000 pieces of mail matter at this house in a single day.

Logans Greek and Dix River.

—About 10 o'clock Monday night some miserable scoundrel set two of Col. J. M. Beazley's large hay stacks on fire. Miss Sallie Traylor has been visiting in the Hanging Fork neighborhood. Mr. Joshua Dunn and daughter, Miss Ella, of Bryantsville, were with relatives here Tuesday. Mr. B. F. Holtzclaw is back from Oklahoma, where he was run by the Indians. Miss Mollie Beazley returned from a brief visft to Miss Bettie Featherson, of Lexington. We are indeed glad to note that all our sick, B. W. Gaines, William Perkins, William Logan, Mrs. W. E. Amons and Joe Rout, Miss Alice Beazley and P. S. W. Robinson, are convalescing. Miss Lizzie Gooch has been visiting at Hubble. Secy. J. F. Grant, of the Middlesboro Iron Factory, was the guest of Miss Spencer. Mr. J. A Dudderar, our wide-awake Gilberts Creek correspondent for the Central Record, accompanied by his handsome wife, was visiting in Upper Garrard the first of the week. Mr. J. W. Adams has moved his family to Rowland. Mr. J. E. Rout spent first of week in Louisville. Miss Dora Spoonomore gave a progressive game of Tiddledewinks to her friends a few days ago. About 16 Indian ponies passed up the Creek Tuesday. We did not ask the man where they were going, but we presume from their looks they were going to the bone yard. Our prognosticator, Prof. John Smith, was asked a few days ago why the ice spell did not come as he predicted, when he replied that it was not cold enough, but it was due here. Miss Becca Spoonamore asks to announce that from two cows she made $70 worth of butter last year. If this can be headed hold up your right hand. Miss Pattie Willis, of Richmond, was the guest of the Misses Beazley on Sunday and Monday. Miss Nannie Walter has returned after a visit to friends in Lancaster. Mr. and Mrs. J. A. Adkins have moved in with Mr. A. F. Moberly on C. O. pike. Walter Holtzclaw sold several tons of hay to Geo. D. Wearen at 55 cents per hundred baled. A. A. Rice, of Danville, Geo. T. McRoberts, of Brodhead, and E. F. Gaines, Lower Garrard, were here Saturday. Miss Lucy Arnold, of Garrard, is expected to-day, Wednesday, to visit Miss Laura Beazley. Mrs. W. F. Eubanks will begin a subscription school first of February at her home on Lancaster pike. Squire Ellis, of Hustonville, has accepted the position of storekeeper at Traylor's distillery in J. H. Swope's place. Mr. William Logan, who suffered such a painful accident a few days ago, we are pleased to say, is improving.

HUBBLE.

—S. Dunbar sold about 100 barrels of corn in the pen to D. N. Prewitt for $2.50. Sam Engleman sold his shoats, weighing about 100 pounds to Ben Robinson at 2¾. Wesley Eubanks sold to Will White one pair of work mules for $200.—W. H. Underwood's house was robbed of about $8.—La grippe among the rich and bad colds among the poor class, being the same disease, are about to give way in this community and all its victims are now improving.—Patterson Underwood killed two rabbits at one shot with a rifle. Where is Fount Myers.—Mrs. J. P. Bland was taken very sick Tuesday. R. L. Hubble returned from the South Saturday and reports the mule market low for common mules. Bro. Montgomery will preach at the school-house Sunday night. Mr. Eubanks is talking of going to Hot Springs with G. P. Bright when he goes to join his wife, soon.—It is to be hoped that a couple of weddings can be reported from Hubble in about 10 days. Perhaps more may fall into ranks by that time.

Colored Department.

Elder G. H. Burkes, P. E. of the Danville district, held his second quarterly meeting at the Methodist church Sunday. He preached three very fine sermons. The meeting passed off grandly. He delivered a very interesting lecture on the moral condition of the colored race under the caption of the Duty of Parents to Children, and from what we hear of the people in their talks we believe it has produced a good effect among them.

Rev. Weathers, of Indianapolis, was in town Sunday and preached quite an interesting sermon to a large congregation at the Baptist church. This was his home when quite a boy. The young man is making quite a preacher.

Next Sunday is the regular missionary day at the A. M. E. church and an interesting programme has been prepared for the occasion. This is the programme: Music; prayer by chaplain; opening address by Rev. E. Wilson; essay by Miss Ella Cook; recitation, Miss Nora Caldwell; duet, Mrs. Harriet Whitley and Mrs. Mary Armstead; essay, Miss Eliza Peyton; declamation, Samuel Wade; solo, Mrs. E. Wilson; essay, Veaster Lackey and Belle Sutton; select reading, Miss Belle Blakeley; music.

—T. L. Holton, of Mason county, missed a calf Christmas week. After diligent search he gave it up as lost, but last week discovered the animal covered up in a hay rick. It was not much the worse from its three weeks' imprisonment and its long fast and on receiving a good feed of warm milk it was almost as frisky as ever.

Rev. F. M. Shrout, Pastor United States Brethren Church, Blue Mound, Kan., says: "I feel it my duty to tell what wonders Dr. King's New Discovery has done for me. My lungs were badly diseased, and my parishioners thought I could live only a few weeks. I took five bottles of Dr. King's New Discovery and am sound and well, againing 28 pounds in weight."

Arthur Love, Manager Love's Funny Folk's Combination, writes: "After a thorough trial and convincing evidence, I am confident that Dr. King's New Discovery for Consumption beats 'em all, and cures when everything else fails. Edward Shepherd, Harrisburg, Ill., had a running sore on his leg of eight years' standing. Used three bottles of Electric Bitters and seven boxes of Bucklen's Arnica Salve and his leg is sound and well. John Speaker, Catawba, Ohio, had five large fever sores on his leg, doctors said he was incurable. One bottle Electric Bitters and one box Bucklen's Arnica Salve cured him entirely. Sold at A. R. Failures in Life.

People fail in many ways. In business, in morality, in religion, in happiness, and in health. A weak heart is often an unsuspected cause of failure in life. For all these maladies Dr. Miles' New Cure for the heart and lungs is the best remedy. Sold, guaranteed and recommended by A. R. Penny. Treatise free.

Druggists everywhere report that the sales of the Restorative Nervine—a nerve food and medicine—are astonishing, exceeding anything they ever had, while it gives universal satisfaction in headache, nervousness, sleeplessness, sexual debility, backache, poor memory, fits, dizziness, etc. L. Burton & Co., Troy, N. Y.; Ambery & Murphy, of Battle Creek, Mich.; C. H. Woodworth, & Co., of Fort Wayne, Ind., and hundreds of others state that they never handled any medicine which sold so rapidly, or gave such satisfaction. Trial bottles of this great medicine and book on Nervous Diseases, free at A. R. Penny's, who guarantees and recommends it.

FIRST NATIONAL BANK

OF STANFORD, KY.

Capital Stock.....$200,000
Surplus.....16,500

Attention of the public is invited to the fact that this is the only National Bank in Stanford. Under the provisions of the National Bank Act, depositors are secured not only by the capital stock, but by the stockholders' liability for an amount equal to the stock, so that depositors of this institution are secured by a fund of $400,000. Five sworn statements of the condition of the bank are made each year to the United States government and its assets are examined at stated times by government agents, thus securing additional and perfect safety to depositors.

This institution, originally established as the Deposit Bank of Stanford in 1858, then re-organized as the National Bank of Stanford in 1865 and again re-organized as the First National Bank of Stanford in 1882, has had practically an uninterrupted existence of 32 years. It is better supplied now with facilities for transacting business promptly and liberally than ever before in its long and honorable career. Accounts of corporations, fiduciaries, firms and individuals respectfully solicited.
